# Top Genre

From the graph, we can see that Rock Music has sold the greatest number of copies followed by Latin. Their distribution seems to be widespread because the Reggae has just 30 copies sold which is far less than Rock.

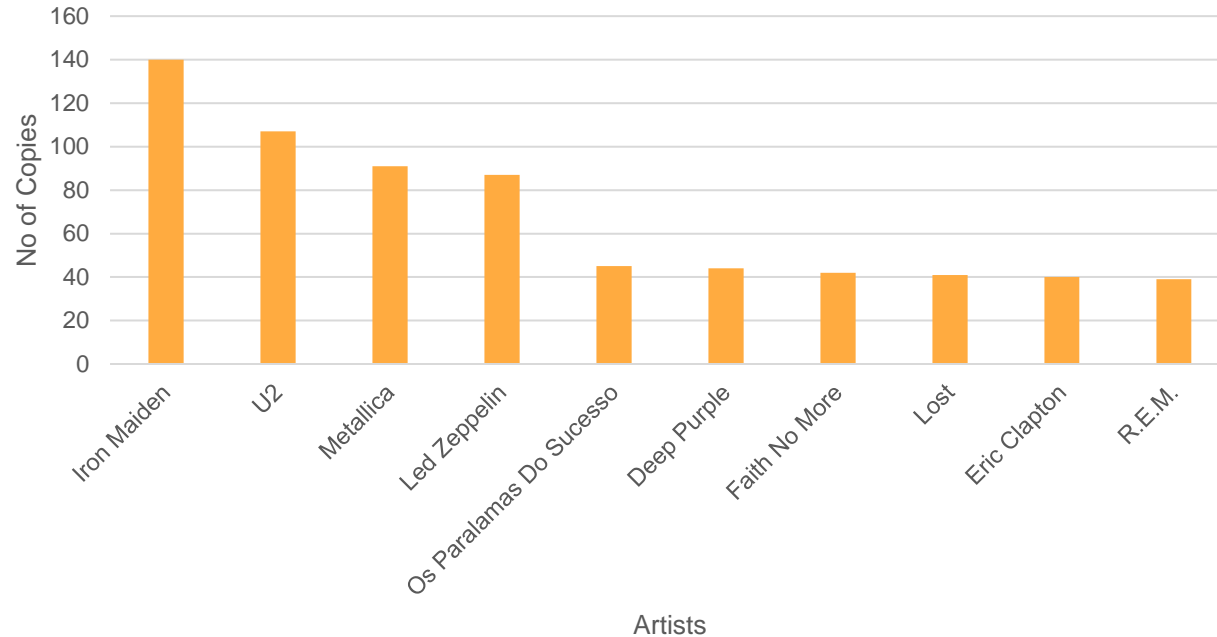

# Top Spending Country

From the graph, we can see USA spends the most followed by Canada. Other countries are nowhere near USA in terms of spending.

# Top Bought Artist

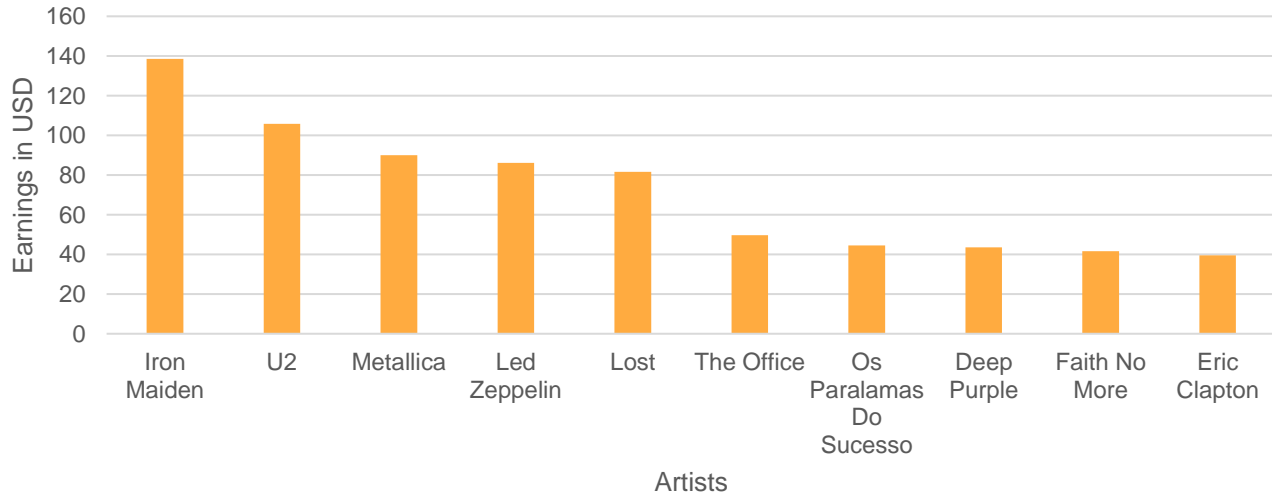

Top 10 Artist bought by customer

Iron Maiden is bought by most of the people followed by U2. This suggests that people really like Rock music.

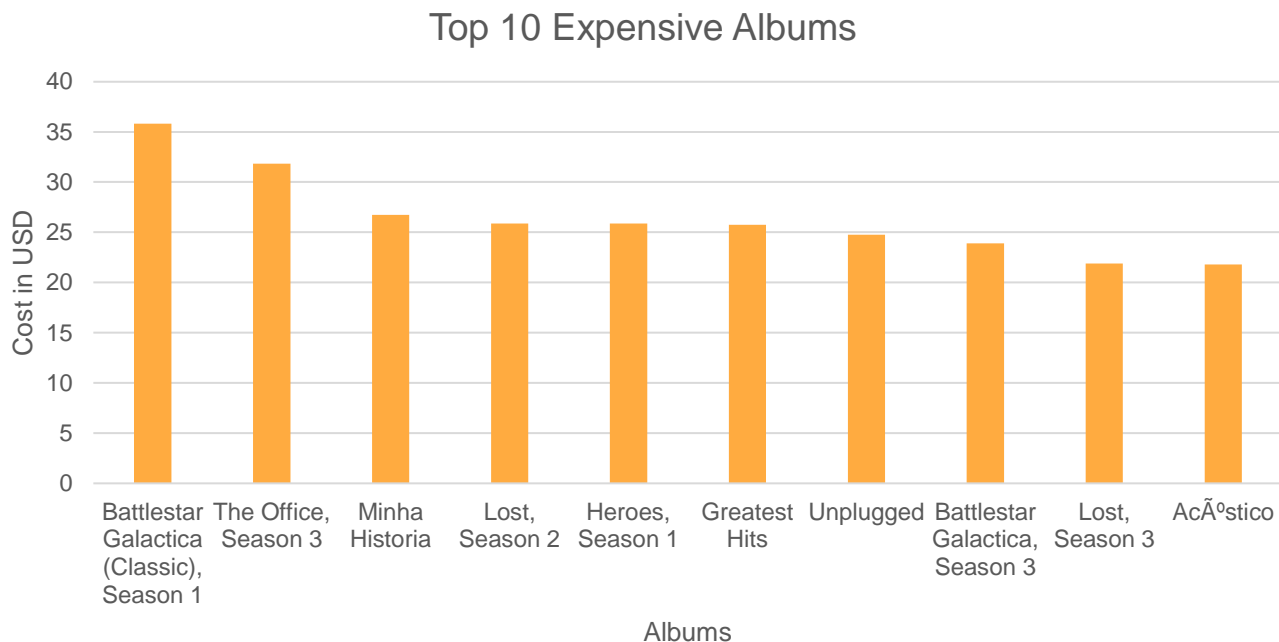

# Top Earning Artists

Top 10 Earning Artists

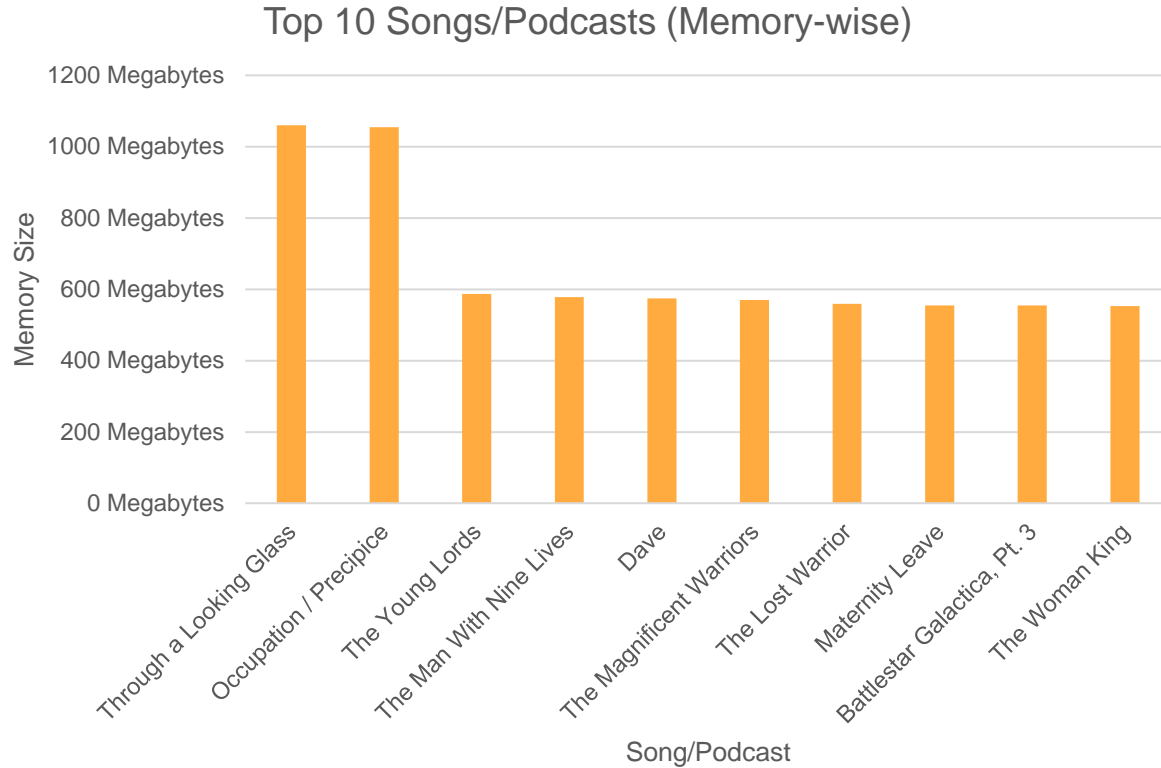

Iron Maiden also makes a lot of profit as compared to other artists as they are sold more in the store. U2 comes 2<sup>nd</sup> when it comes to earnings.

# Top 10 expensive albums

From the graph, we can see that the most expensive album is Battlestar Galatica (Classic) Season 1. It seems like a TV series music album. The Office (Season 3) follows it by being 2<sup>nd</sup> most expensive album.

# Top Songs/Podcast As per size

From the graph, we see Through a Looking Glass is the largest in term of memory which is greater than 1000Mb which is followed by Occupation/Precipice. The size this big suggests, it might be a podcast.

# Top 10 spending customers

## TOP SPENDING CUSTOMERS

From the graph, we can see that Helena Hana from Czech Republic spends the most with around \$26 and she is followed by Richard Cunningham who is from USA spending around \$28. They are the most valuable customers to the store.
